### Who is ITT?

At ITT, we have a clear vision of our purpose – to partner with our customers in the transportation, industrial, and oil and gas markets to solve their most critical problems. That vision is core to who we are and over the past four years, it has driven our focus on continually building our foundation and capabilities as a growth-oriented, multi-industrial company.

### What Do We Do?

We are a leading manufacturer of highly engineered, critical components and customized technologies that provide differentiated solutions for our customers across the globe. Our portfolio has strength and durability, balance and diversity, whether by business mix, geography or market. Our businesses are also aligned with global growth drivers – urbanization, a growing middle class and sustainable development – that underpin our modern way of life.

### What Makes Us Different?

We are unique due to the talent and contributions of our 9,500 employees around the world, who are committed to our principles of Impeccable character, Bold thinking and Collective know-how. Together, they are outstanding innovators and ambassadors for our long-standing brands – Goulds and Bornemann pumps, Cannon connectors, KONI shock absorbers and Enidine energy absorption components, to name a few – that are recognized and trusted globally.

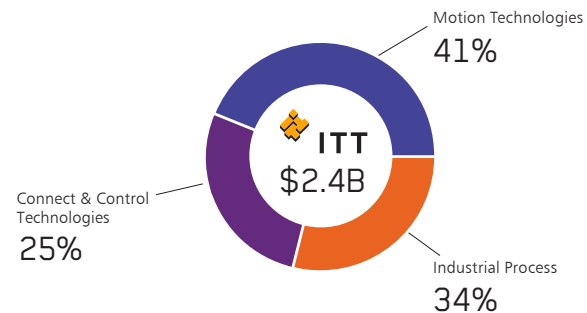

### How Do We Succeed?

We combine our advanced technological solutions with a focused operating model based on leading with technology, differentiating with customers and optimizing our work. By driving industry leading performance, we ensure that we are well positioned for continuing growth and value creation and that the ITT legacy extends and expands far into the future.
